We grow over a hundred and fifty varieties of Hemerocallis, many of which are brand new novelties, hence a limited stock. Of many of these varieties we have stock enough to sell but so limited as to forbid their listing.

Your correspondence we welcome about any variety you may be interested in, or regarding any of those listed in our sample guest list, which is necessarily incomplete.

All our plants are guaranteed to be healthy stock, true to name, and to arrive in good condition. Should plants not arrive in good condition return them to us at once and we will send fresh plants or refund the purchase price, which ever seems best.

Terms are cash with the order. Orders are sent postage prepaid on all orders of \$3.00 or more. With orders for less, add 25 cents for postage.
